3D & TEXTURED GRAPHICS

We are able to provide textured print graphics on a large range of material such as glass, plastic & timber. Your print can have a textured raised print surface, which will give an extra dimension to your project.

STEEL

PLASTIC

MINI

STEEL, PLASTIC & MINI LOCKERS

Interloc **STEEL LOCKERS** are a great economical choice. For a simple and cost-effective installation, our powder-coated steel design is suitable for a wide range of environments, particularly those requiring heavy-duty use. Our standard steel lockers are freestanding, but can be used in any number or combination to suit your space requirements.

Our **PLASTIC LOCKERS** are specially designed for environments that are exposed to regular wetness or humidity. This innovative design provides a practical solution for aquatic centres, changing rooms, resort pools, outdoor areas, commercial kitchens, and other areas where timber and steel have proven unsuitable.

For secure storage in confined spaces, our sophisticated **MINI LOCKERS** are the solution you need. These compact units are just large enough to provide safekeeping for small personal items like wallets, keys, purses and phones. Space-saving and functional, these small, wall-mounted units can be easily integrated into any public or private area.

SEATING

We provide premium, custom made seating based upon your specification and requirements. Create a comfortable locker room environment with quality seating solutions, designed to enhance user experience and make the best use of your space.

Designed for convenience, comfort and durability, Interloc seating combines the best in design and manufacturing with simple installation, making it easy for you to create the perfect seating area.
