

LOCKING SYSTEMS

EXTRA HEAVY DUTY PADLOCK RECEPTOR

User provides their own padlock. Commonly used for locations such as backpackers, hostels, gyms, or any public access lockers.

STANDARD KEY CAPTURE

Supplied with 2 x key per lock with a master key system. The key is held in the lock and released when in the locked position. Comes with 1 coloured tag to match locker number.

STANDARD PADLOCK RECEPTOR

Ideal for Public environments such as Gyms, Pools, Schools, Universities etc. User provides their own padlock.

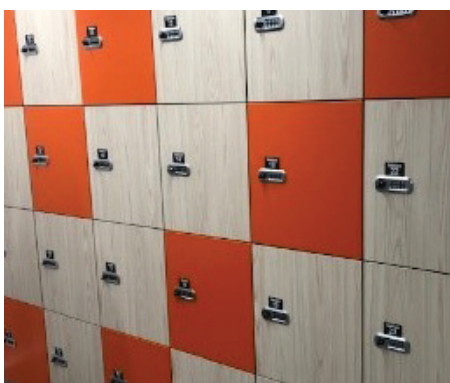

STANDARD KEY LOCKING

Comes with 2 x keys and Master key system.
Also comes with barrel.

Removal key if keys are lost. These keys cannot be cut due to security.

New barrels are available and come with 2 x new keys.

Comes with 1 coloured tag to match locker number.

MECHANICAL KEYLESS LOCK

Batteries not required, keyless system with master key opening when required.

\$2 COIN RETURN OR AVAILABLE COIN RETAIN SYSTEM WITH KEY CAPTURE

- ▶ Keys remain captured in the front of the door, at this point the door will remain open.
- ▶ The inside section of the lock has a coin slot where a \$2 coin is placed.
- ▶ Once the coin has been inserted the door is then closed, the key is then turned and released.
- ▶ The coin is captured with a \$2 coin retain.
- ▶ With the coin return the coin is returned when the locker is opened again.
- ▶ Coin retain will cost \$2 for each opening and closing of the door.
- ▶ Once either of these processes are complete the key will remain captured again.
